### **Reading Comprehension**

### 3 Read the following, then answer the questions:

We have a big garden around our house. There is a lot of grass there. Now, it's September and the grass is long and thick. I also have three trees in the garden. There is a young lemon tree which is very small. It doesn't have any fruit. There is also a peach tree in the garden.

There aren't many peaches this year because of the cold weather in April and May. The third tree is an apple tree. Apples always grow well in this area and the tree is full of big green apples. Tomorrow, I want to make a big apple pie. There are the red roses and we have other flowers that are green and yellow. There are two animals in the garden, a beautiful white cat and a friendly dog.

### 3 Read the following, then answer the questions:

We don't know who made tea first time, but we have heard many stories about that. Nearly five thousand years ago, the king of China boiled his drinking water under a tree. Some of the leaves fell into the pot. Then he drank the water, he liked the taste very much. He thought that the taste came from the leaves of the tree. People drink tea because they think it helps them to stay awake for a long time. Tea is grown in China and India. People drink tea with milk. Others like it with lemon when they feel tired. People usually drink tea in the morning and after lunch.

Reading is a very helpful habit. It gives us new ideas and improves our language. When you read, you need to be in a quiet place. It is better to wear your reading glasses if it is necessary. You should read different topics. To remember what you read, it is a good idea to have a pen in your hand to underline or circle the important points. Try to discuss what you have read with your friends. People read for different goals. Some people read for enjoyment just to feel happy and spend a nice time. Others read for work. Students read for their study or research. All of us read the news and the weather report. We also read messages, emails, and letters that we receive.

New technology means that forms of communication are changing all the time. For example, think about how phones have <u>developed</u> over the last 20 years. In the past, people used to type messages using special letters on their phones. Then, people started to touch the screens on their phones to type their messages. Now, phones are able to understand people's voices and many people are speaking to their phones to send messages. Some scientists think that phones are going to know what people think in the future. Perhaps our phones will read our facial expressions before <u>they</u> send a message.

### 3 Read the following, then answer the questions:

Should we work all the time without having rest? The answer is that we can't go on working without stopping. From time to time, we need some rest and do some interesting activities. If we didn't do that, we could make mistakes and our work might get worse. If we work all the time, we may lose the ability to think clearly and have no energy to go on working, so sleep is very important. It renews our energy. Sports and games are also important for the people who stay in closed offices and are not able to do exercises, such activities as swimming and walking may give them a lot of energy, so we shouldn't waste our weekends and try to forget all about our work. We can then enjoy ourselves.

Our natural environment gives us everything that we need. We get air, water, food, and many other things from the environment. We can save the environment by making sure that we take care of nature. We should save water. Water is very important in our environment, so we should never pollute it. We can recycle many things instead of throwing them away. Trees are good for the environment and help reduce air pollution. We should plant more trees. This will help to improve the size of natural places for animals. We should teach our children to look after the environment.

During my summer holiday, I went to visit my grandparents who live near the beach. Every day, we went to the beach. We swam in the sea, built sandcastles, and enjoyed the sun. We also went on a boat trip to see the nearby islands. At night, we had chicken with delicious fish and vegetables. We played many games and watched films together. I also read a few interesting books. My summer holiday was both relaxing and enjoyable, and I made many wonderful memories with my family. We went back home and decided to go there next time.

About/Subject: Shopping online

Dear Nour,

How are you and your family? I want to tell you about online shopping. Some people prefer shopping online, but others don't prefer it. Most people think that online shopping is great. It saves time. People don't need to spend lots of time travelling to the shops. They can stay at home and buy the things they want in a few minutes. They have more choices online. If more people shop online, there will be fewer cars on the road and less pollution. Old people can do all their shopping online. On the other hand, other people don't like online shopping. They prefer going to real shops. At a shop, they can see what they are buying and they can try it first. They don't like to waste time waiting for a delivery. They think that if everyone shops online, many shops will close. If they close, then lots of other businesses like cafés will close, too. Do you have any experience with online shopping?

Yours,

Mai

Technology has become an important part of our lives. It makes our daily tasks easier. For example, we use mobile phones to communicate with our friends and family, and computers help us with our schoolwork and jobs. The internet gives us a lot of information and allows us to learn new things every day. Moreover, technology has improved transport and medical services, making our lives more comfortable and healthier. Although there are some negative things, the positive things about technology are great. We should be careful when we use technology.

Dear Tom,

Greetings! How are you and your family? I hope you are in good health. I'm very happy when I write this email to you. I wanted to share with you my favorite food – koshari! It's a popular Egyptian dish made of rice, lentils, pasta, and a spicy tomato sauce, topped with fried onions. My mum makes the best koshari at home, and I always look forward to having it for dinner. Have you ever tried koshari? If not, I'd love for you to try it someday. Maybe when you visit Egypt, we can enjoy it together!

Best regards,

Ahmed

Dear Amira,

Greetings! How are you and your family? I hope you are in good health. I'm very happy when I write this email to you. I wanted to share with you my favorite snack these days. It's called "fruit salad with yogurt." It's delicious and healthy. To make it, I cut my favorite fruits into small pieces. Then, I mix them in a bowl with some yogurt. Sometimes, I also add a bit of honey. I think you should try making it at home. It's easy to make. Let me know if you try it and what you think about it. Remember me to your family. With my best wishes.

Yours,

Salim

Waleed's class are learning about the environment in their science lessons. They are studying pollution that comes from vehicles and they are reading about how factories can pollute rivers and the sea. They all agree that everyone should do more to help the environment. Their teacher, Mr Said, asked them to think of the things that they could do. The students

Mohammed said that people should walk more and use their cars less. This would keep the cities cleaner and people would be healthier. Ghada said they should build car parks outside the city centre. Waleed suggested having a bottle bin in the school, where students could put their empty plastic bottles. They could collect them and use them again. Hadeer suggested a bin for drink cans. Mr Said thought these were very good ideas and he would pass them on to the headteacher, Abdel Aziz.

People invent things for many reasons. For example, Graham Bell invented the telephone to help people communicate with each other when they are not in the same place. The telephone and the television news and interesting information. The telephone and the television have brought much great happiness. However, they have also brought problems. For example, the telephone can make people lazy - they may telephone friends instead of visiting them. The television can also make people lazy. For example, more people now watch sport on television than go out and do a sport themselves. Everything we use has its advantages and disadvantages,

I prefer life in the country where one can enjoy a simple, quiet and beautiful life. The villages in Egypt have improved lately. In the past, villages were just groups of poor houses. There was no electricity or clean water. There were very few schools. Sick people had to be carried to hospitals far from their villages.

Now, the picture is very different. The houses are well built like the houses in towns and cities. They are supplied with electricity and clean water. In every village, there are primary, prep and secondary schools. Pupils no longer go to cities and towns to join schools. Villagers now use modern technology such as fridges, washing machines, computers and mobile phones that make their life better and more comfortable. Villagers are proud because the best places

people often cut back on their sleep for work, for family needs, or even to watch a good show on television. But if not getting enough sleep is a regular part of your routine, you may have many diseases, poor mental health, and even early death. Even one night of short sleep can affect you the next day. Not only are you more likely to feel sleepy, you're more likely to be in a bad mood.

Scientists advise that healthy adults need between 7 and 9 hours of sleep per night. Babies, young children, and teens need even more sleep.

People over 65 should also get 7 to 8 hours per night.

To improve your sleep, go to bed at the same time each night and get up at the same time each morning, including the weekends. Make sure your bedroom is quiet and dark. Remove electronic devices such as TVs, computers, and phones from the bedroom. Don't eat large meals before hedtime. Get some exercise.

Three young Egyptian women reached the final of the Google Science Fair competition, with their invention of an intelligent glove to help the deaf. Young scientists Sara (18), Nourhan (17) and Asmaa (17) recognised the difficulties faced by those with hearing and speech problems. The disabled often find it difficult to communicate with other people, who for the most part are unable to use sign language. The team worked on the idea of a glove that can translate hand signals into letters and words. The young women hope that their invention will be a powerful tool for people who are deaf and hard of hearing to communicate more easily through life.

"Through the Google Science Fair, we've invited today's brightest young minds to answer an important question: how can they make the world better through science, maths and engineering? We received thousands of extremely impressive answers to this question from over 107 countries this year, and we can't wait to announce the winners later in September," Google said in a statement.

Egyptian clothing styles did not change much throughout ancient times, Clothes were usually made of linen. Men usually wore a short skirt. Women wore a straight fitting dress. When doing hard work, men wore hard cloth, and women wore a short skirt. Children usually ran around without clothes during the summer months, while in the winter, cloaks were worn. Noblemen would sometimes wear a long robe, while the women wore long dresses. Women wore circular capes. They were generally made of linen and had an opening for the head cut at the center. Most people went barefoot, but wore sandals on special occasions. Clothing styles were chosen for comfort in the hot, dry climate of Egypt. The wealthy

Music is the best way to be happy and busy in life. In this busy and crowded world, music keeps us happy during these difficult times and helps to provide relief to our brain. I have realised in my own real life that music is, in fact, a tool to help keep everyone happy. Music can help both our body and mind. We can listen to music anytime throughout the day, listening to quiet music is a very good habit.

lalways like to listen to music at the time of my studies and especially, at the time of my exams. It helps a lot in increasing my concentration during

studies and it actually gives me quite good results as well.

I love music from childhood. Some students get addicted to listening to music and they do not do any work without music which can be harmful as it will not allow us to concentrate on one task. Music is like yoga, it makes us happy and helps to keep balance in the body, relieves our body and mind and thus keeps us physically and mentally healthy. This protects us from being overweight as well as other mental problems.
